

Our vision: Salford Clinical Commissioning Group will commission and ensure the delivery of high quality health services and enable our population to live longer, healthier lives

Our Aims: 1) Improve healthcare quality 2) Improve health and wellbeing outcomes 3) Reduce health inequalities 4) Prevent ill health

Outcome Ambitions (By 2018/19)

Ambition 1: Reduce potential years of life lost through conditions considered amenable to healthcare by 8.9%

Ambition 2: Improve the health-related quality of life score for people with long term conditions from an average of 68.2 to 69.6

Ambition 3: Reduce unplanned avoidable admissions by 9.7%

Ambition 4: Increase the proportion of older people still at home 91 days after discharge from hospital into reablement/rehabilitation services from 73.5% in 2013/14 to 80.5% by March 2016

Ambition 5: Reduce the number of people reporting a negative experience of hospital care by 2%

Ambition 6: Reduce the number of people reporting a negative experience of GP Out of Hours services by 20%

Ambition 7: Improve the reporting of medication errors

Our Strategic Programmes

Quality: Engage with all sectors of our population to encourage their involvement in improving the quality of care provided. Work with our providers and members to ensure they deliver safe effective and accessible services. Minimise variation in quality and secure continuous improvement.

Community Based Care: Support and invest in GP practices and community services to increase the scope and scale of care provided outside of hospitals. Support GP practices to work in a federated manner in way that improves the integration of health and social care services. Seek opportunities to enhance the role of community based pharmacists and opticians. Develop community based estates workforce and IM&T strategies to support our aspirations for Community Based Services.

Integrated Care: Jointly plan for integrated health and social care services with local partners and community groups to enable people to retain their independence and quality of life. Work effectively with health and social care organisations to support the assessment and commissioning of NHS funded Continuing Care from a range of providers, nursing homes and home care providers.

In Hospital Care: Support secondary care reconfiguration/service transformation in the conurbation through Healthier Together Programme whilst also maintaining a focus on the delivery of NHS constitutional standards.

Long Term conditions and Mental Health: Support the treatment of long term conditions in primary care and community settings, with a particular focus on cancer, circulatory and respiratory diseases. Support preventative measures aimed at improving morbidity and mortality rates of those with long term conditions.

Governance Arrangements

- **Health and Wellbeing Board** – oversees whole system health economy priorities
- **Clinically lead Governing Body and membership** arrangements responsible for reshaping CCG vision, priorities and objectives and holding organisation to account
- **Committees and sub-committees** – operational responsibilities for overseeing implementation of the strategic plan
- Open and honest **engagement with patients**

Success Criteria

- Reduced gap in life expectancy
- Improve morbidity and mortality rates
- Improved outcomes for cancer, circulatory and respiratory disease
- Safe, effective and patient focused services
- Jointly commissioned integrated health and social care
- Secondary care reconfiguration
- Support for long term conditions in primary care and community settings
- Achievement of statutory financial duties
- Achievement of NHS constitutional standards

Values

- We collaborate
- We innovate
- We act with integrity
